## MANITOBA SCHOOL QUESTION.

Mr. Donald A. Smith has received the following letter from Rev. H. H. Campbell, of Montreal, touching a question of great public importance at the present moment: "Will you allow me to say as a citizen to thank you for the very interesting and important historical statement which you gave to the public last week, in response to the request presented to you by the people of the Red River settlement, prior to their acceptance of the terms accompanying their entrance into Confederation, that you might have much weight in contributing to a solution of the present vexed problem affecting Manitoba. I hope that due regard will be paid to the noble sentiment of the 1870 Plate, as to changing not, thoughtless as to his own hand. The good faith of our Sovereign and of the sovereignty of the people of Canada, when you represented in the transaction, must be respected, even though it might involve some concession to the people. What you suggest, even as to the limitations of the pledge given, may help to an equitable settlement of the present difficulty. At all events, in view of your statement last evening, I hope our Protestant friends throughout the Dominion will try and view the matter calmly, and consider how it would affect them had the destinies of the new province been different from what they have proved to be. I am, Sir, very truly, Sir, your obedient servant, H. H. Campbell."

The Bishop of Manitoba likes apple cake. He prefers it made with Dr. Price's Baking Powder.

## STILL HARPING ON THE SUGAR TARIFF.

"In his budget speech, Mr. Foster said: 'The tax on raw sugar was paid, certainly out of the consumers' pockets, it being a tax not on an article grown in the country, but on a raw product brought in, which must pay the tax at the cost of the consumer of the article.' What do all the protestations of the Conservatives mean, amounting to the face of that confession—Hamilton Times. The 'protestations of Tory organs to the contrary' are mere fragments of the Times' imagination. What the INTELLIGENCER and we believe, other Conservative journals have held, is that the duty on raw sugar is not wholly protective, because all raw sugar imported was not used in the refineries; that much of it went into consumption unrefined; and that, of course, the duty on such sugar was not a protective character. Thus something which cannot be gained."

## A STRIKING CONTRAST.

The Mail and Empire, in its comments on Mr. Foster's budget speech, remarks: 'Mr. Foster put the case clearly in the tabulated statement which he presented to the House, in which he exhibited the relative conditions of the two periods, 1874-75 and 1894-95. In the former, the exports fell by \$18,000,000; in the latter our exports rose by \$28,000,000. In the former our imports rose by \$28,000,000. In the former the duty collected decreased by \$1,400,000; in the latter the duty collected fell by \$4,500,000. In the former the taxes increased \$3,500,000; in the latter the taxes decreased \$6,000,000. In the former the percentage of duty rose by four per cent; in the latter it fell four per cent. In the former the duty increased \$40,000,000; in the latter it increased \$5,000,000. In the former the interest on the debt increased \$1,000,000; in the latter it increased \$100,000. In the former the net per capita income increased from \$1.34 to \$1.19; in the latter it decreased from \$1.19 to \$1.17. In a word, under Sir Richard's policy, the duty decreased, and the debt and taxes increased, while during the past four years there has been an expansion of trade by fifty-six millions, accompanied by a decrease of taxes and a relatively small increase in the debt and the taxes being the taxation to the minimum; we are entering into no vast enterprises and are therefore not swelling the debt."

## A WOMAN'S ADVICE.

WHICH IS WORTHY OF THE MOST FAVORABLE ATTENTION.

A Lady in Lunenburg, N. S., Tells How she was Relieved From a Distressing Menstrual Affliction After a Month's Use of Dr. Williams' Pink Pills for Pale People.

The Argus, Lunenburg, N. S.

Among the residents of our quiet little town there is a lady who has been a sufferer from a distressing menstrual affliction for many years.

Her name is Mrs. C. M. Smith, and she is a native of Lunenburg, N. S.

She writes: 'I have been a sufferer from a distressing menstrual affliction for many years.

My health was so bad that I was unable to do any work, and I was constantly suffering from pain and weakness.

I had tried many remedies, but none of them gave me any relief.

Until I came to Lunenburg, N. S., where I met a friend who had used Dr. Williams' Pink Pills for Pale People.

She told me that she had been cured of her affliction by using these pills, and I decided to try them.

I bought a box of Dr. Williams' Pink Pills for Pale People, and I began to use them.

After using them for a month, I began to feel better, and my health improved.

I was able to do my work, and I was no longer suffering from pain and weakness.

I am now perfectly cured of my affliction, and I am very grateful to Dr. Williams for his kind and effective medicine.

I have no more to say, but I hope that my experience may be of some benefit to others who are suffering from a similar affliction.

I am, Sir, very truly, Sir, your obedient servant, C. M. Smith.

Letters like this speak stronger than any advertisement. Such a testimonial is a strong recommendation of the efficacy of the medicine. I have used it for four years, and it has cured me of all my troubles. I have used it for four years, and it has cured me of all my troubles. I have used it for four years, and it has cured me of all my troubles.

The average amount of sickness in human life is two days per annum. For about two years I was troubled with liver troubles. I was using Dr. Thomas' Elettir Pills, I was completely cured, and although four years have elapsed since then they have not returned. For medical pills are not to be despised. I have used Dr. Thomas' Elettir Pills, I was completely cured, and although four years have elapsed since then they have not returned.

The rate of my liver was fully reached by at least two expressions on the Midland Railway from St. Catharines to Toronto, and the other a great Northern express from Grandin to Kingston. ## The Best Spring Medicine

In B.B.B., its powerful, cleansing, purifying, and regulating influence courses through the natural gates and alleys of the body and removes  
**Bad Blood**  
and all impurities of the blood. B.B.B. tones the sluggish liver, restores lost appetite, gives regular action of the bowels, and makes  
**Rich, Red Blood**  
Thus giving health and strength to resist the heat of summer and ward off the attacks of disease. For children its use is more than double its value. It is necessary in spring, and pleased parents testify that it gives life, health, strength and a  
**Bright, Clear Skin**  
to the little ones. In cases of Dyspepsia, Constipation, Biliousness, Headache, Nervousness, etc., after years of trial and error, B.B.B. is the only remedy to give you

ALMOST CRAZY.

Suffering from Constipation.

Expected to be in the Asylum...

After all other Remedies

Failed B.B.B. made a Per-

Cure, Restoring Robust

Health.

GENTLEMEN.—To say all I ought to in

favor of B.B.B. would be impossible. It

has been a great health restorer to me and

I do so by it. I am a different man

now to what I was years ago, when I

was expected to be in the asylum, and

I was in perfect robust health, and

it was the B.B.B. that did it. I suffered

for five or six years from constipation,

sometimes so severely that I went out of

my mind. I tried various doctors, both in

the country and in the city, and took

medicines for numerous months, but every

thing failed to have the desired effect.

When I used B.B.B. Blood Bitters, how-

ever, it succeeded beyond all expectations,

requiring only two bottles to cure me.

I am now a different man, and I feel that

it still more certain that B.B.B. is the

real cure for Constipation, I may say that

I have never had any return of the

disease, and I have never any medicine to

work with. It does not seem to be a

mere relief, but for hundreds of dollars

worth of medicine and doctor's bills, I

have now a permanent cure that has given

me two years of health.

Your truly,  
J. H. KILMER.

was troubled with inward piles, but by

the use of B.B.B. I was completely cured,

and, although four years have elapsed

since then they have not returned, and I

## Daily Intelligence.

WILL FREE TRADE MAKE YOU RICH?

That the speech which Mr. Northrup made in the hall at Belleville, on Thursday last, was so successful, and so completely brilliant, that it was well worth the trouble of attending it, is evidenced by the fact that both of the leading journals in Toronto devoted their leading articles to Thursday's speech to the subject of free trade. The arguments advanced by the member for East Hastings, as to the benefits of protection; but, with great significance, it does not even attempt to answer his opponent, and is not even important. This is a distinct triumph for Mr. Northrup, who, in no doubt, when occasion arises, reply to the Liberal organ. The Mail and Empire deals with the matter at length, and so clearly brings out the points made by the representative of East Hastings that we are tempted, although the article is a lengthy one, to reproduce it in full, which we do herewith.

Mr. Northrup, in his speech on the budget, dealt with two leading issues, that of population and that of values. The population argument, as Mr. Northrup maintained that if you defend, urban and rural, from the competition of foreign labor, you cut down the population, whereas by bringing in the cheap products of the farm and the forest, you increase the population. The position seems to be in violation of the ordinary rules of common sense, but Mr. Northrup is a man of eleven per cent. in ten years. This increase is below the normal natural increase. Therefore we have no reason to suppose that such low would not have sustained had the free trade system been in force. Mr. Northrup has estimated that our ratio of increase has been larger than the European ratio.

But it is worth while to view the case from another standpoint. Our census is taken every ten years. The census of 1871, our census in 1881, and a third in 1891. After the census of 1881 was taken Mr. Blake, who had no previous opinion, took the point that the figures were unduly favorable to the country in that they showed a larger population than we really had. He said of the census-takers: "In some cases they have counted every person who belongs to the country, although that person had been a very long time resident in foreign parts. In other instances men who have been in the country ten or twenty years have, as I have been informed by persons in the locality who were familiar with the circumstances, been counted. I know an instance of a relative of my own whose case will throw some light on this point. He was a man of family who at the age of three was adopted by another person, and was removed 120 miles. From the age of twenty-one, he lived 120 miles away in the family of his adopted parents. But the census-taker, who was a parent, finally insisted on counting him there, and, of course, he was counted in the census. Mr. Blake was quite right in his criticism. Alas, alas, lady away from home, father working in some other place, and children, which they would, daughters at school, daughters at service, persons in the United States, were all counted in the census system. As a result of the importation of the census of 1881 the Government determined that the figures for 1891 should be right. It is, therefore, arranged when the 1891 census was taken that there should be no duplication. Every person who is to be counted only once, whether he actually resided in the country or had gone abroad." The altered principle was applied. The altered principle was applied, which the census of 1891 was taken renders it difficult to reach a fair conclusion touching the increase since 1881. However, that the fact of the (proportion) labor stated in Parliament in 1892 which the figures for 1881 were: Mr. Anglin, the leader in question, said: "We know even in our part of the country that the many persons have moved to appear in the census as residents of Canada who had left years ago and have no intention of returning."

Instead of our population being 4,300,000—this was the official figure—we have, scarcely more than four years ago, with this last for calculation to hand, it is possible to learn what the census returns teach. In 1871 the population was 3,635,000. The figure was never disputed. In 1881 the population was 4,000,000, according to the official calculation. Here was an increase of 365,000 in the decade, during five years of which Sir Richard Cartwright was in office and low tariff was having full play. In 1891, the new counting system being adopted, the population was 4,353,000—an addition of 353,000 in ten years. From 1871 to 1891 the increase was 618,000 per cent. for the decade; from 1881 to 1891 the increase was twenty per cent. When it is remembered that the population increased in population by just eight per cent. between 1881 and 1891, it seems fair to assume that our population between 1881 and 1891 was not at all high, and in the decade before us, the use of the census of the opening fiscal period, the verdict of the figures is plain. Under the low tariff we had a large and steady increase.

My health was completely restored by CAMPBELL'S BEEHIVE CO. LIVER OIL bottles taken in 22 days increased my weight by 15 lbs.

BELLEVILLE, SATURDAY, MAY 18.

## AN UNJUST LAW.

We were thinking in accord with the following from the Toronto Star: "Because the law respecting the seizure of the goods and chattels of tenants for landlords' taxes, has been on the statute books for years, years and more, it is no wonder why it should remain there, if the law is an unjust one."

That is an unjust law, simple enough, was given before the committee which met to consider the question yesterday. There are many people who are not aware when they move their goods into a house, that they are liable to secure an account of taxes that may have been standing for years. Yet such is often the case, especially if the furniture happens to be worth any considerable amount, and is likely to realize under the hammer the amount of taxes due.

There may be cases of real hardship inflicted in seizing the goods of the landlord himself; but the injustice as well as hardship attending a seizure, comes in when the goods belong to a tenant, a person who does not owe the debt. The law as it stands is a disgrace to the statute books.

Admittedly, holding powers are dear as a gift. Dr. Price's is absolutely pure.

## WHERE THE SHOE PINCHED.

The attack which Mr. Mills made upon Mr. Angus, says the Mail and Enquirer, designed as it was to prove that that gentleman was wrong in dismissing a Ministry that was waiting the public money, although Mr. LeBlond was apparently right in dismissing a Ministry because it had failed to carry out its personal opinions, was received with cheers by the Liberals in Parliament. It is easy to understand how indignant the party must feel when it reflects on Mr. Angus' course. A very large portion of the money stolen in Quebec went to the Liberal campaign fund. Mr. Angus went off the books, and as we all know, it is unconstitutional for a Lieutenant-Governor to interfere with the supplies.

## THANKFUL FOR FAINT PRAISE.

The Monetary Times says that "in criticizing the Budget Sir Richard Cartwright was at his best, and pruned the bones of the speech."

The Monetary Times' praise, remarks a contemporary, was of a rather peculiar character. The Journal recorded Sir Richard's "faults," and, ordinarily, that he failed to put himself under the discipline of restraint in drawing on a reserved vocabulary, for which the statesman of our day has no serious use. The present sign of enlightenment, however, is by friend and foe. Commenting on the statement of Sir Richard the Monetary Times further remarks that "he (Sir Richard) asserted that the English aristocracy pays in taxes only a twentieth part of what the Canadian aristocracy pays, and that he requires, except anthracite coal and tea. He puts the total amount paid by the aristocracy at \$600,000,000 a year, one-half of which goes into the treasury and the other half into private pockets. Having made this statement, it is difficult to see how it can be reconciled with the statement that 'manufacturers prospered more up to 1878, and in a far more substantial way, than they have since.'"

## THE N. F. AND WHEAT.

At Hon. John Dwyer's nomination of Mr. L. Barnard, Mr. Dwyer in a speech remarked about the farmers if the National Policy had given them a higher price for their wheat. A very complete answer to Mr. Dwyer's query was given in a recent daily Bulletin issued by R. G. Dunn & Co., which says: "There is no doubt that the price of wheat has advanced in the last five cents per bushel in the price of Ontario white wheat, which has sold since the beginning of the week at 80 cents along the line of railway north and west. Holders in many cases are now asking 85 cents, and this price will be obtained if the market continues as at present on the upward track. The price a year ago only 75 cents, while flour was a dollar a barrel more than now. The price is not likely to show 85 cents, as at 87 cents, 90 cents, and 95 cents, wheat from the United States, paying the 10 cent duty and freight."

## THE TRUTH FOR ONCE.

The Montreal Witness, in commenting on the annual statement of the Bank of Montreal, which it considers less favorable than that of last year, although the Bank earned \$1,210,430 and paid two half-yearly dividends of 10 per cent each, remarks:

The financial and commercial troubles in the United States, which affected so seriously the business of this country, have also injured business generally, and have been a great loss to the colonies of this kind and kindred business, and from the low prices of agricultural products.

## THE WITNESS' FAILURE TO ALLOW ANY EFFECT FROM THE N. F. IN THIS CONNECTION IS HIGHLY SIGNIFICANT. CAN BE THAT OUR CONTEMPORARY IS AWARE OF THE FACT THAT THE OBJECT OF HIS ARTICLE GREATLY INCREASED THE EFFECT OF THE COMMERCIAL TROUBLES IN THE UNITED STATES UPON BUSINESS IN CANADA, AND SUPPRESS A PORTION OF THE TRUTH?

## EDITORIAL PRIVILEGES.

# POWER FROM THE AIR.

THE USE OF COMPRESSED AIR IS BE-  
COMING VERY GENERAL.

To Raise Sunkens Versus—Scheme  
for the Disposition of Unusable—Other  
Topics of Industrial and Scientific  
Interest.

A very interesting article on "The  
Welding of Compressed Air," by  
Whitfield Lee Pilling, is published in  
the Engineering Magazine, a paper  
devoted to the publication of news  
of the progress of engineering and  
of the various branches of science  
which are connected with it. It is  
one of the best papers of the kind  
that has recently come into the  
hands of many of our readers, and  
it contains much of the most in-  
teresting and valuable information  
that has been published in recent  
times. It is a paper that is well  
worth the attention of every one  
who is interested in the progress  
of engineering and of the various  
branches of science which are  
connected with it.

COMPRESSED AIR IN THE MINE.  
A recent application of an old  
principle is a pneumatic culm-conveyer,  
designed to remove culm from the coal-  
face and convey it to the surface  
by directing a current of compressed  
air into the culm, which is then  
carried to the surface by the air.  
The culm is then carried to the  
surface by the air, and is then  
carried to the surface by the air.  
The culm is then carried to the  
surface by the air, and is then  
carried to the surface by the air.

FOR THE DISPOSAL OF SEWAGE.  
The system for the disposal of  
sewage by air under pressure has  
already been mentioned. It is a  
system that is well worth the  
attention of every one who is  
interested in the progress of  
engineering and of the various  
branches of science which are  
connected with it.

A pointer for the Globe: The National Policy did not keep out the frost.

The Globe would bless the N. P. if it would have the effect of retiring Sir Richard Cartwright from Parliament. But the N. P. gives a kick worth two of that Sir Richard, more than any other man, has been the friend of the N. P. He was the direct cause of the adoption by our people of the protective system in 1878, and his able advocacy of that system and his support of it, since it was put into operation in 1879, have been amongst the most effective agencies in its behalf.

Mr. Northrup had a good deal of fun yesterday in the Dominion House at the expense of Mr. W. Patterson, says the Brantford Courier. Scarcely any other man in the Dominion has given occasion to more contradictory views on the tariff question than the member for South Brant, and Mr. Northrup rubbed the fact in with a fine artistic touch.

That great family journal, the Hamilton Spectator, has spelled the word "empire" with a "y" where an "i" ought to be, as per the modern authorities. Here is a grand opportunity for its local contemporary, the Times, to use the fact as a text upon which to base a discourse on the blighting effects of the N. P. We offer this hint free of charge.

Mr. Charlton has been giving his annual conversation—he never makes a speech in the accepted sense of the term—in the budget. Mr. Charlton omitted, on this occasion, to give his opinion of the "French" leader, of "machine politicians" such as J. D. Edgar, and of John Charlton, the professional, who in 1876 used to be his close ally—in fact, was inseparable from him.

Verily Mr. Northrup's speech has fired the Grit leaders. The Globe is busy with hurrying a column leader at Sir Friday's issue, followed it up with a column and a half on Saturday, and the Grit organ's guns were "loaded up the other way." The only harm which they did to those who stood behind them.

In the budget debate in the Imperial House, remarks the Mail and Empire, Col. Howard Vincent said the importation into Great Britain of foreign manufactured goods amounted to £20,000,000, or \$345,000,000, against £41,000,000, or \$650,000,000, fifteen years ago, and that there are six times as many unemployed men to-day as in 1880, and that last month 400,000 paupers were registered. Will free trade make you rich?

The Hamilton Spectator says: The Ottawa Free Press is bolder than other Liberal papers. It doesn't shrink from expressing its admiration for the late Queen Mercur, his methods and achievements. He was, says the Free Press, a giant, and his detractors are pigmies. Well, it may be admitted that the late Queen was a giant—and it is well for Canada that it produced not only giants, but giant-killers.

Wednesday's issue of that live journal, the Buffalo Express, contains a list of hands for sale for farms, country places, and places in close set type. A generation of high tariff, while it has helped a few to amass fabulous fortunes, seems to have pretty thoroughly peeled the skin off the small fry in the good city of Buffalo, which may be regarded as a type of the enterprise and prosperity of the United States—Peterborough Examiner.

And yet a few years ago the Examiner and all the Grit papers in the country, excepting the Woodstock Sentinel-Review—were dilating upon the prosperity of the United States, urging commercial union with that country, and asking for a free trade tariff, which they now claim to be in England. It is now the cry of the Grit. After it, too, has been slaughtered in the next election, the "party" will probably show John Cartwright overboard.

The Genuine Herp. Of Hood's Sarsaparilla who think, who ever it is fairly and honestly tried. To have perfect health, you must have pure blood, and Hood's Sarsaparilla, the best blood purifier and strength builder, it cures all kinds of humors, and at the same time builds up the whole system.

Hood's Pills are prompt and efficient.

A cable despatch of Saturday says: The Judicial Committee of the Privy Council yesterday gave Sir Oliver, Mr. Justice of the Ontario Attorney General, a majority appeal from the Supreme Court of Canada, judgment regarding copyright.

October 23, 1895

My health was completely restored by CARBON'S Sarsaparilla. I have lost 25 pounds in 25 days increased my weight by 15 lbs.

## Cheese Markets.

London, May 20. In the market offered 2,500 tons. The market was quiet, and the price of cheese was steady. The demand for cheese was not strong, and the supply was ample.

## Cure for Tiflemen.

The Ottawa correspondent of the Mail and Empire writes: Mr. C. M. P. has a method for curing tiflemen. The method involves the use of a special diet and a series of exercises. The cure is said to be very effective, and has been used with success by many tiflemen.

## BABIES, NOT WOMEN, THEY CLAIM OUR BEST CARE.

Some mothers act as if their babies were nonentities—beings not worthy of thought as far as proper diet is concerned. In nine cases out of ten such mothers have coarse, puny and delicate babies, because they are badly nourished. The babies are not properly cared for, and the mothers are not aware of the importance of proper nutrition for their children.

## They Thrive Best on Lactated Food.

The babies who are properly cared for thrive best on lactated food. Lactated food is a food that is specially prepared for babies, and it contains all the nutrients that a baby needs. It is a very healthy and delicious food, and it is the best food for babies to eat.

**Why Don't You Use Surprise Soap?**

It does away with hard work, don't boil or scald the clothes, nor give them the usual hard rubbing. It gives the whitest, sweetest, cleanest clothes after the wash. It prevents wearing and tearing by hand soap and hard rubs. Rub lightly with Surprise Soap—the dirt drops out. Harmless to hands and finest fabrics.

## COOKING ON A TABLE.

The Kitchen Range can be easily fitted with a new electric range.

Electricity has worked changes on the kitchen, and the new electric range is shown two views of the latest methods of cooking. All operations of cooking except baking are performed

on a moderate sized table and the oven for baking is shown in the center. On the table in the first cut are an electric grill, for which the range is fitted, and a small electric stove, for which the range is fitted. To show the efficiency of the outfit and to prove how fast cooking by electricity would be, a company of a dozen friends

was invited to a dinner of six courses, which was cooked in the dining-room of the hotel by the lady of the house, with the help of a butler, the entire preparation consuming less than an hour and a half, during which time the lady had time to converse with her guests and superintend the setting of the table. It must certainly be admitted that while taking up very little space, and being so easily moved, the electric way of cooking is superior to the old way in many respects. The total absence of heat in the room, where the cooking is done, cannot be praised too much, as every housewife will testify with pleasure.

## LATEST FASHIONS.

BECOME SERVICEABLE AND STYLISH TRAVELLING GOWNS.

New Jackets and Mantelets—Yellow Chiffon Waist—Black Velvet Skirt—Black—Pink Dotted Changeable Silks—Painted Colliettes.

Among the most serviceable gowns shown this season, those made up by English tailors for travelling and shopping. They are simplicity itself, yet very expensive on account of their foreign extraction. The domestic manufacturers can give us similar gowns within smaller prices.

Diagonal and finer series in black, grey blue and bright brown are being worn for the four- and six- pointed or round

brown, tan and white, with boucle stripes in yellow, tan and blue or red. These will make capital gowns for summer. One thing about mixtures that recommends them to shoppers is that they do not show dirt easily.

Besides the always worn navy and brown series are two fabrics of this season in colors similar to "dorm" serge in light tan, blue and white. Blue, which has been brought out in the season in the fashionable plain colors and stripes, green, olive, brown and tan are prominent in both collections, and the modes are recommended for travelling and general wear. They shake the dust clean, easily and endure hard service.

A light brown velvet boucle with tan waist and blue is made up with a skirt in live yards wide, which has the back in two parts. The lower edge is trim with blue, and the skirt is plain. The round boucle is double breasted, with stitched straps over the shoulders and borders the cuffs, and the collar, which may be of cloth, velvet or satin, brown velvet being shown and black for the fastidious across the front to match.

A high collar and V fastening with tiny horn buttons finish the neck. The sleeves are very large and plaited into the body. The lace has a slight fullness at the back somewhat in the manner of a small capelet.

A light weight of tan-colored cloth is used for this gown with a trimming of brown, navy blue and green in the collar and cuffs, and the skirt is plain. **BASE BALL.**

There is every probability that the local

base ball season will have a good season

starting on Monday, July 10th. The

Kingston, one of the best teams in this

district was a guest at the 10th of Jan.

and other clubs have been looking for dates

when they can play.

When Casey Slugged the Ball.

Oh, you all have heard of Mullville,

Heard of Mullville Casey, too.

Of the crime committed by the

local three days ago, you have heard.

But you haven't heard the story.

The story of the day in Mullville.

When Casey Slugged the Ball.

"Take the day they played 'the giants,'

And the score was 10 to 10.

Two men were on the base.

And Casey was at the plate.

"Swing her, Casey," yelled the rosters.

"He's right," yelled the rosters.

"Three to win and that's it."

Casey at the bat.

And a loud expectation.

The ball flies past his head.

And he swings at it.

"Strike one," the umpire said.

Against the horrible field.

Great Casey went up the ground.

And the umpire said, "Strike two."

"It's a foul," came from the grandstand.

"He's right," yelled the bleachers.

"He's right," yelled the bleachers.

"I'll break your face," says Casey.

"That was not a foul," says the umpire.

Famous Doctor's Chloride of Gold System.  
Through its agency over 20,000 slaves to the  
use of these poisons have been emanci-  
pated in the last fourteen years. Lakehurst  
Sanitarium is the oldest institution of the kind  
in Canada, and has a well earned reputa-  
tion to maintain in this line of medi-  
cine. In its wards will be placed not as  
patients of disease, but as those who are  
suffering from the effects of the poison.  
In the treatment, hundreds of homes in  
every part of the Dominion have dis-  
covered the efficacy of a course of  
treatment with us. For terms and full  
information, writeTHE SECRETARY,

PaperTHE designs of our spring wall  
papers are beautiful and the color-  
ings exquisite. The effects they  
produce upon the wall have been  
studied with intelligent sympathy and the  
"long-felt-wants" of a few years ago have  
been provided for with cultivated taste. A  
judicious employment of any of our papers  
leaves little to be done in a room. A few  
ornaments, according to the taste or

# THE YOUNG WIFE.

By MARY WATKINS.

Copyright 1896.  
CHAS. C. TAYLOR.

Someone falling into sin and sinning, the story of a young woman, glowing with summer days, shining through transparent hangings of gold and green leaves and flowers, and a constant, almost unbroken, long line of sinners, sinning on their way to the end of the world.

The young wife, resting on the sofa, her eyes closed, her head thrown back, and her hands clasped in prayer, was looking at the clock on the wall. It was ten o'clock, and she was alone in the room.

The door opened, and a woman entered, her face pale and her hands trembling. She looked at the clock and then at the young wife.

"What is the matter?" asked the young wife, opening her eyes.

"The doctor is here," said the woman, "and he says you are very ill. He wants to see you at once."

The young wife started up, her face pale and her hands trembling. She looked at the clock and then at the woman.
